Key Digital Celebrates Continued Success of its Control System

Compass Control Professional offers unparalleled design while remaining cost-effective

MOUNT VERNON, NY – Key Digital, Inc. – October 2, 2019 – As infrastructures around the world take giant strides to join the digital age, Compass Control Pro remains the backbone that integrators and installers know and trust. Key Digital, the leaders in digital video and control systems, offers the most cost-effective and customizable control system on the market with ever-evolving updates to meet each technological advance.

Compass Control Pro is a fully integrated control system built from the ground up to use iOS devices to replace traditional control interfaces. The innovative system offers flexible solutions scalable to any size. The Compass Control Pro GUI delivers a modern and user-friendly interface, and with the option for customized graphics the GUI can take on any design theme desired.

> *"Our new Compass Control Pro GUI interface is nothing short of elegant while remaining fast, reliable, and user-friendly. Every update launched by Key Digital is aimed at our devotion to providing our integrators, installers, and end-users with a control system that they are truly delighted to use,"* said Masha Lakhter, COO for Key Digital.

The latest updates to the popular control system build off the existing software suite with exciting new look and feel, features, and functions. The new GUI is now even more user-friendly and modern with an easily understood homepage featuring large scenario buttons that configures the room or allows users to enter the various areas of multi-zone systems. Upon entering a scenario, the user may easily access useful content of their current room configuration or zone. A large view of the control for their video, audio, signage, lights, shades, HVAC, security, and power devices from Compass Alliance Partners provides only the necessary controls and feedback ensuring a simplified experience for all.

Compass Control Pro instantly integrates components from Compass Alliance Partners to create a simple plug-n-play system. Key Digital has partnered with Lutron, Leviton, Honeywell, KNX, and many additional industry leaders to enable Compass Control Pro's control drivers and pre-configured GUI templates to streamline system development and reduced programming time.

About Key Digital®

Led by the "Father of DVD", Mike Tsinberg, Key Digital® is an InfoComm, CEDIA, CES, and NAHB award winning manufacturer of professional distributed video and control system equipment.

Since 1999, Key Digital has lead the constantly evolving A/V industry by designing products that deliver industry leading quality, performance, and reliability to corporate, bar & restaurant, digital signage, education, government, and house of worship applications.

Key Digital products are designed and engineered in-house in Mount Vernon, NY. Superior quality, ease-of-installation, and versatility are the result of strenuous research, development, and testing. Expertise and unparalleled knowledge have created a unique hardware-software suite solution ideal for the consultants, designers, and installation firms of the A/V industry. Key Digital® is known to deliver best-in-class products based on quality, performance, and reliability.
